### PIOCHE LOCAL NEWS

M. C. Godbe is expected at the Prince mine in a day or two.

Mrs. Jos. Delmoe, Jr., left yesterday for Salt Lake.

Joe Delmoe, Jr., was in Ely early in the week on a business trip.

E. H. Snyder of the Greenwood lease, is expected in camp again in a few days.

Mrs. Eben Wheatley left Wednesday for Tacoma, where she will probably remain while Mr. Wheatley is in training at American Lake.

Mr. and Mrs. Jos. Delmoe, Jr., are figuring on making their home in Salt Lake City.

Mr. and Mrs. Joe Hollinger were in from Eagle Valley to see the soldier boys take their departure.

P. A. Delmoe was here this week from Salt Lake and visited Eagle and Spring valleys on a cattle buying expedition.

Mrs. Ben Harris left Wednesday for Salt Lake, accompanying her son, Frank Varner, who has gone to American Lake, that far on his trip.

Mrs. Frank Riding and children of Eagle Valley left Tuesday for Santa Monica, Calif., for a visit with her daughter, Mrs. James Blair.

Mrs. Geo. Adair left Monday for Salt Lake and expects to locate at Tacoma or Seattle while Mr. Adair is in training at American Lake.

Mr. and Mrs. Wm. Kixmiller are enjoying a visit from their daughter, Tillie, who arrived from California last Monday morning.

Harold Clark came up from Las Vegas early in the week accompanied by Leland Ronnow. The boys left Tuesday afternoon for Salt Lake to enter the state university; the former to study law and the latter to take up an engineering course.

#### Case at Caliente

Justice of the Peace A. W. Thomas and District Attorney Orr were called to Caliente Wednesday to participate in the hearing of a criminal case, the State vs. Davis. The jury disagreed on a verdict and was discharged. Upon motion of the defense, the re-hearing of the case was put off until a later date.

It appears that the whole affair was brought about through a quarrel between neighbors.

### WHY WE ARE NERVOUS

In perfect health we hardly realize that we have a network of nerves, but when strength is declining the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability, and unless corrected, leads straight to a breakdown.

Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and so feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force.

Scott & Bowne, Bloomfield, N. J.

LINCOLN AND CLARK

BOYS JOURNEY TOGETHER

The Lincoln county soldier boys were joined at Caliente last Wednesday afternoon by the Clark county contingent, which came along in a Pullman car bearing a huge banner containing these words: "Clark and Lincoln Counties, Nevada."

The two delegations filled the car to its capacity and the "Sammies" were ticketed through to American Lake, Washington. The boys were scheduled to leave Salt Lake last evening at 7:30 o'clock.

#### Equipment Being Moved

It is reported from Caliente that the equipment at the railroad repair shop is to be moved to Las Vegas and other points; which will mean the removal of several families from that point. It is hoped that this change will last only temporarily.

## FOR BETTER ROADS

### HARD ROADS ARE NECESSARY

Big Essential in Using Trucks for Transportation of Farm Products to City Markets.

The farm truck is destined to play an important part in the marketing of farm produce, but in the meantime much attention must be paid to the roadways over which they are to be operated, in the opinion of W. H. Sanders, instructor in farm motors in the Kansas State Agricultural college.

"To use a truck to advantage hard roads are necessary," said Mr. Sanders. "Trucks have been used with marked success for a number of years on paved streets. Although they were used to transport food and water to the United States troops during the recent occupation of Mexico, the war department soon decided that hard roads were a requirement in operating trucks to the best advantage.

"Use of a truck on the farm saves time and reduces the number of men required to do the farm hauling. When a truck is operated on the farm greater care will be used in laying out the fields so as to give a more efficient use of power expended. Time will be saved, because less time will be spent on the road between town and the farm. The number of farm hands will also be reduced."

### PERMANENT ROADS IN FAVOR

Money Spent for Location, Grading and Drainage of Roads is Useful Expenditure.

Investing money in the proper location, grading and drainage of roads is about the most permanently useful expenditure of public funds that can be made. Usually courthouses are considered typical of such an investment, but a well-located road is serviceable for a far longer period. The courthouse is outgrown at the end of a quarter century; if it continues in

Road of Bituminous Macadam.

use longer it must be remodeled and the public officials in it clamor for better quarters. But a road laid out on proper lines and grades serves the public forever, and on that account its location should be made by a competent engineer. Furthermore, even the local roads should be laid out with the same care, so that as the country develops they will improve with it and not require expensive purchases for new rights-of-way. Foresight in such matters will have valuable results within a comparatively few years in a country growing as fast as the United States.

### FIRST ROAD UNDER U. S. AID

Will Be Located in Apache National Forest, Arizona—Several Advantages of Highway.

The first national forest road to be constructed under the federal aid act will be located in the Apache National forest, Arizona, a survey for which has been authorized by Secretary Houston. The proposed road will be 71 miles in length and cost about \$342,500, to be borne equally by the federal government and the local community. Among the advantages of the highway will be the opening up of enormous industrial resources and a magnificent recreation area for tourist travel.

#### Influence of Automobile.

The influence of the automobile upon road improvement is constant and omnipresent. It reaches the remotest rural regions and tends to convert bad roads into good and good roads into better.

Cost is \$800 a Mile.

The average cost for repair and maintenance of 7,300 miles of highway in Connecticut, Massachusetts, New York, New Jersey and Rhode Island for the year 1912 was about \$800 a mile.

### THE IRISH KAISER

(Tune: The Wearing of the Green)

When the war is over laddies  
Just take the tip from me;  
There'll be no German submarine?  
A diving in the sea.  
In the Fatherland of Kaiser Bill,  
The Guy we're sure to lick,  
We will have a brand new Kaiser  
And the same will be a Mick.

We will change the song: "Die Waecht AM Rine,

Into an Irish reel,  
And make the Germans dance it  
If so inclined we feel.

For the police in Berlin will be  
Micks from County Clairs.

When we put an Irish Kaiser in  
The Palace over there.

Sure in every German parkway  
You'll find a sweet Coleen, and  
The fields of waving samkraut

Will change to shamrocks green.  
No liverwurst and sausage  
Where the Kaiser drinks his suds;

He'll get corned beef and cabbage,  
And good old Irish spuds.

The heathen guns and gas bombs,  
We will throw them all away;  
And make them use shillalahs,

Or bricks, of Irish clay.  
They will wear no Iron Crosses;

Sure it's shamrocks they will wear,  
When they put the Irish Kaiser  
In the Palace over there.

### CLASSIFIED

NURSING—Confinement cases. Apply to Mrs. Eilers, Pioche.

WANTED: There is a fine opening for a competent person of character to represent the Northwestern Mutual Life Insurance Co. for and about your community. It is not necessary to give your full time to the work, and the undersigned will be glad to cooperate with the right person. Exclusive field and excellent contract to the party that can deliver. Better write at once, giving full details in first letter to  
Th. von Rolf, General Agent,  
Northwestern Mutual Life Ins. Co.,  
6629 Hollywood Blvd.,  
Los Angeles, Cal.

Mrs. John Reese and son, are here from Stockton, Utah, the guests of her parents, Mr. and Mrs. S. M. DeBolt.
